Arborell

Link: <https://arborell.com/>

Category: **Gamebook adventures**

Arborell contains a number of gamebooks and a diverse collection of associated materials. Many titles are currently available for download and the first question to be answered must be: where to start? The answers are found in the first basic gamebook, Windhammer.

What sets this apart from most other gamebook series is that you not only get to influence the fate of the characters you play, but also explore the culture, mythologies and histories of all the protagonists. Both sides of this world are open to exploration using novels, novellas, collections of mythological stories, fully-functional fantasy languages, tabletop RPGs, war games, and a multitude of short micro-gamebook adventures.

FROM THE AUTHOR OF THE CHRONICLES OF ARBORELL

The Troll of Brenn Now Available

Although not a part of the Chronicles of Arborell gamebook series the author is pleased to announce the release of a new fantasy title, The Troll of Brenn. It can be said that a troll's life is not an easy one and when Ignatius Wallat finds a bridge to call his own life only gets more complicated. Cantankerous and ill-mannered his greatest wish is to be left alone, but it will be a wedge of cheese and the kindness of brave men that will change his life, and elevate him from homeless
