Socrative

Categoria: Test e quiz interattivi

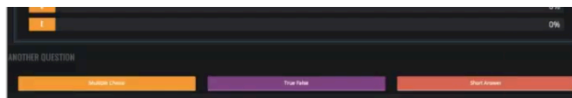

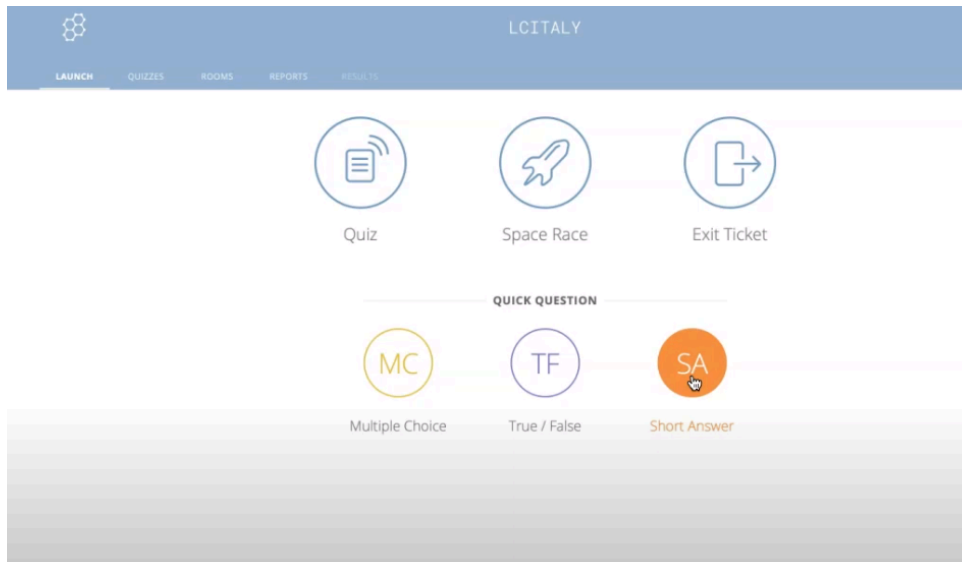

Socrative (versione per insegnanti e studenti) ti permette di creare quiz personalizzati per verificare l'apprendimento dei tuoi studenti, decidendo le domande e le opzioni di risposta (scelta multipla, risposte aperte o vero/falso).

È una piattaforma versatile e utile a partire dalla scuola primaria.

Gli alunni possono essere invitati a partecipare al quiz tramite codici QR da scansionare sul proprio dispositivo.

L'insegnante sul PC riceve un feedback istantaneo, non solo sul numero di errori commessi, ma anche sul tipo di errore.

This is great to use for a quick 1-2 question check for understanding. You do need to have the question and options ready for your students. Then you can address any concerns quickly with those 1-2 questions.

Space Race

Teams of students compete by answering questions. Students are placed in teams randomly and don't know who is on their team to start off. Each individual's answer, if correct, helps move the space ship across the screen. At the end of the race, you can download the question data per student.

Exit Ticket

This is a quick three question exit ticket you can give your students at the end of the class or day. The three questions are:
 How well did you understand today's material? (4 options)
 What did you learn in today's class? (open ended question)
